Today is for tomorrow

We are recording our first interview/workshop in the new studio. I’m excited for all that is ahead. Dr. Waylon Bailey (pictured) will be presenting some teaching from Deuteronomy. I should be sleeping but I’m still up…. The first test went well. Now for the grading and recording of grades.

I tried in vain to help Darlene with a App for her new job but only to find out it only works with a cel number. So a little time in vain.

San Francisco is clobbering the Royals. Not watching. Don’t care.

Tomorrow will be a huge day of work, recording and church.
